Germany does not need to make formal
 declaration of war against the United
 States as long as it continues its illegal
 submarine campaign.

The introduction of nine bills on April
 4 might not look like sine die adjournment
 for the Vermont House on April 7;
 but still it is a possibility.

The prompt and generous response to
 the appeal for a "company fund" for the
 headquarters company of Barre is splendid.
 Let's make the fund a thousand dollars.

Taken as a whole, the series of ban-
 quets given this winter under the aus-
 pices of the Barre Board of Trade has
 proven to be of considerable benefit, par-
 ticularly in getting Barre business men to
 touching elbows in friendly fashion and
 partly in enabling them to get into closer
 intimacy with some of the ideas of im-
 portance outside of their own spheres of
 activity. For its part in the enterprise,
 the Board of Trade merits commendation.

The people in the United States who
 are of German birth or ancestry know
 well enough the truth of President Wilson's
 words, that Americans have no hatred for
 the German people. It is the govern-
 ment that represents the people of Ger-
 many with which the United States is
 quarreling at the present time. Amer-
 icans regret exceedingly that they must,
 in consequence, be brought into conflict
 with the people who are dominated by
 that government.

UNIVERSAL MILITARY TRAINING.

The claim that military training de-
 velops a nation of people crazy for war
 does not hold true in a democracy. It is
 only in an autocracy, where the people
 are moved about like pawns to suit the
 ambitions of headstrong rulers, that the
 application applies. If Germany had
 been a democratic country, with the
 people directing their own destiny, there
 never would have been a war like this
 despite the fact that Germans have been
 undergoing military training for decades
 and decades. A near application of the
 truth of the assertion that military
 training does not inculcate a love for
 war, or even a predilection for war, is
 given by the graduates of our own Nor-
 wich university, who, following their four
 years of more or less rigorous military
 regime, go out from the institution and
 enter civil life with the same spirit as
 other American citizens, the spirit of pa-
 triotism but not the desire to wage war.
 Were it true that military training be-
 gets a desire for war our Norwich gradu-
 ates of a century would have been con-
 siderable factors as fomenters of inter-
 national discord; yet they are not—they
 are just as peace-loving citizens as the
 men who never shouldered a rifle. If
 every able-bodied man in the United
 States should be compelled to go through
 a course of military training at a certain
 age we should not be any more of a war-
 like nation than we have been since the
 Civil war, because the people of the United
 States rule themselves and they would
 not throw away their own lives without
 just provocation. That is one feature of
 the present rising demand for military
 training in the United States which
 ought to be taken into consideration.
 There are, of course, many positive ben-
 efits of the universal military training
 system.

THE IGNORANT SIX!

The six "wilful senators" (it is a mild
 term to use in connection with their at-
 titude now) succeeded only in part in
 carrying out their plans to ditch the
 United States government in a slough of
 dishonor. They held up the movement
 for the time being; they could not effect
 a wreck. Led by that man of curious
 mental abnormality from Wisconsin,
 they were able to hold up the progress of
 undoubted public opinion in the country
 as a whole, but only to hold it up. The
 parliamentary clog which LaFollette in-
 terposed to the war resolution on Tues-

A RAW, SORE THROAT

Eases Quickly When You Apply
 a Little Musterole

And Musterole won't blister like the
 old-fashioned mustard plaster. Just
 spread it on with your fingers. It pene-
 trates to the sore spot with a gentle
 tingle, loosens the congestion and draws
 out the soreness and pain.

Musterole is a clean, white ointment
 made with oil of mustard. It is fine for
 quick relief for sore throat, bronchitis,
 tonsillitis, croup, stiff neck, asthma, neu-
 ralgia, headache, congestion, pleurisy,
 rheumatism, lumbago, pains and aches of
 the back or joints, sprains, sore muscles,
 bruises, chilblains, frost-bite, colds on
 the chest (it often prevents pneumonia).
 Nothing like Musterole for croupy chil-
 dren. Keep it handy for instant use.

It's Wonderful How
Resinol Stops Itching

To those who have endured for years
 the itching torments of eczema or other
 such skin eruptions, the relief that the
 first use of Resinol Ointment and Resinol
 Soap usually gives is
 incredible. After all
 the suffering they have
 endured and all the use-
 less treatments they
 have spent good money
 for, they cannot believe
 anything so simple, mild and inexpen-
 sive can stop the itching and burning
 INSTANTLY! And they find it still
 more wonderful that the improvement
 is permanent and that Resinol really
 drives away the eruption completely in
 a very short time. Perhaps there is a
 pleasant surprise like this in store for
 you. Resinol Ointment and Resinol
 Soap are sold by all druggists.

A Good Soap For Baby Skin

A good baby soap should contain
 soothing, healing properties to pre-
 vent the rashes and chaffings to which
 babies are liable. That is why so many
 physicians recommend Resinol Soap.

day was removed the following day by
 virtue of its own limitation; and, follow-
 ing a memorable debate, which was toler-
 ated merely to give the puny minority a
 chance to put in its defense, the Senate
 passed the resolution by practically
 unanimous vote. To be sure, there were
 six votes against the resolution; but
 their opposition was discounted and dou-
 ble discounted. It was a foregone con-
 clusion that they would vote contrary to
 the vastly predominating sentiment of
 the country. And when we refer to the
 vastly predominating sentiment of the
 country we do not mean blood-lust—a
 desire to kill—war just for war's sake—but
 rather we mean an earnest purpose
 to uphold the honor and dignity of the
 United States which, unfortunately,
 could not be maintained in any other
 way than by resort to war. Those who
 say that Pres. Wilson is actuated by
 blood-lust—that those who favor war are
 also actuated by blood-lust—are lying;
 and they know they are lying. There is
 no more sincere advocate of peace than
 that same Pres. Wilson and in that senti-
 ment he leads approximately 95,000,000
 people. The nation shudders at war. No
 one really wants war. Yet practically
 95,000,000 people realize that war is ab-
 solutely necessary to defend the nation's
 honor and to scotch the viper which is
 stalking through world civilization.
 Hence the motive which actuated 82 pa-
 triotic men in the United States Senate
 Wednesday night. Arrayed against them
 were Gromna, LaFollette, Lane, Norris,
 Stone, Vandam, May history be char-
 itable with them!

FOOD PROBLEMS.

They Are Studied in Relation to Impend-
 ing War.

New York, April 5.—Scientific experi-
 ments on American boys to determine
 the quantity of food best suited to in-
 sure maximum physical endurance are
 understood to have been indirectly re-
 sponsible for recent sweeping charges in
 methods published by the German govern-
 ment and the German relief commis-
 sion in increasing rations for children.
 Through this economic reform, it is ex-
 pected that the death rate from tuber-
 culosis in Germany and Belgium will be
 decreased. In view of the international
 situation, in which the United States is
 forced to consider problems of agricul-
 ture and food supplies both for home
 and entente consumption, a movement
 has been put under way, it was learned
 yesterday, to have American scientists
 take up this phase of economic prepared-
 ness with the government.

When the national academy of sciences
 met in Washington on April 16, Dr.
 Graham Lusk, professor of physiology at
 Cornell Medical college, will subscribe to
 views that the United States should send
 troops to Europe, but will assert this
 would be impractical unless the govern-
 ment could provide food in sufficient
 quantities both to maintain national
 welfare and to supply the entente.

WILL WARN IF SHARKS
ARE COMING NORTH

American Museum of Natural History
 Expert to Study Their Habits
 off Florida Coast.

Miami, Fla., April 5.—John T. Nichols
 of the department of fisheries of the
 American Museum of Natural History of
 New York City, by a three weeks' in-
 vestigation of shark habits along the
 Florida coast at this season expects to
 gain new facts, and, if possible, give
 warning if they show any indications of
 making another incursion to upper latitudes,
 endangering life on northern bath-
 ing beaches, as they did last season.

During March and April the sun has risen
 so high that a southerly wind brings
 genuine hot summer conditions to south-
 ern Florida, with an incursion of fishes
 from equatorial waters, which will later
 extend up the coast. The white shark or
 man-eater is looked for farther south
 at this season. Mr. Nichols, who has
 encircled the globe in sailing yachts and
 schooners and fished in most of the wa-
 ters of the earth, hopes to secure a num-
 ber of specimens of various species of
 shark from which he will be able to add
 to the scientific information concerning
 their habits. Their value as food fish
 will also be studied.

Problem of Financing the War Discussed
 by Cabinet.

Washington, April 5.—The problem of
 financing the war was discussed in detail
 at Tuesday's cabinet meeting, and it is

 tion. A bill to authorize such a loan
 may be framed by the administration
 and submitted to Congress soon.

MAY BAR GERMAN PAPERS.

Resolution Aimed to Keep Them from
 the Mails.

Washington, April 5.—Newspapers
 printed in Germany would be barred from
 the mails by a resolution of Senator
 Poinsett prepared yesterday.

While holding that most of these pa-
 pers would be loyal, he contended that
 the existence of even one, spreading Ger-
 man propaganda, would be harmful.

German Flag Torn Down.

New York, April 5.—The German flag
 was torn from among the emblems of na-
 tions at the New York Methodist Epis-
 copal conference in the Washington square
 church yesterday. After a lengthy de-
 bate a resolution was adopted sustaining
 Rev. H. C. Warren's action in removing
 the flag.
